THE MARKET IS SLUGGISH

Union Pacific Made a Familiar Movement, But Failed to Carry the Market.

MERGER SECURITIES

Their Renewed Strength on the Curb Was Only Sympathetic Response to Union Pacific.

NEW YORK, March 29.—Union Pacific made a movement in today's stock matter similar in character, although of less violenes, than that on Monday of less violenes, than that on Monday of less week, preceding the announcement of the igan of distribution of the Northern Securities assets. But this isolated movement falled signally to carry the general market with it. The sluggishness of the general market seemed adequitely accounted for in the early dealings by the conflicting movement in United States Steel preferred, which sold down more than a point below yesterday, closing. The general list seemed to be field in suspension by these conflicting movements, but the discrepancy become any interesting against United States Steel preferred. We refleyed with the discrepancy become marked little field in the day, when sold referred was refleyed in the day, when you were while the rise in United States Steel preferred was refleyed in the day, when peame more howard. The removed strength in the merger securities on the cutth was the only resoured the remained inert until the raily just at the close. The source or the motive for his buying of Union Pacific wis as much a thysicity as ever, but thery can be no doubt that the specialities con that specialities con the process of undoing the Northern Securities merger. The impression in Wall Strate is that the Union Pacific in the resement holdings of Northern Pecific an the control of that system, while it is also felt that there is no more disposition to yield this peaceably than at any state provious time. Reports of enormous control of that system, while the list of the currous time. Reports of enormous control of that system, while to lead the currous time. Reports of enormous control of that system, while to lead the currous time. Reports of enormous control of that system, while to late of the three time. (By Associated Press.)
